

Cryptocurrency,
Reimagined.

Cryptocurrency is a massive revolution!

For the first time in human history, individuals can hold their money with their phone wallet without having to rely on a trusted third-party like a bank. This changes everything.

SAFEX, powered by ECOIN, is going to trigger mass adoption of Cryptocurrency.

You can earn ECOIN through social mining (Referring others), cashback Mining (buying products from merchants) etc and buying crypto on SAFEX exchange

The benefits are unlimited

By holding ECOIN, you benefit in two ways, you benefit when the price of Ecoin goes up

 You also benefit when you receive rewards through Ecoin lotteries and wishoo Votes

 On Safex Wallet you can Hold various other cryptocurrencies apart from Ecoin like Bitcoin, TRON, and even USDT (US dollar stable coin) safely through advanced security protocol.

Do you know how the Rich people across the world protect their savings from inflation?

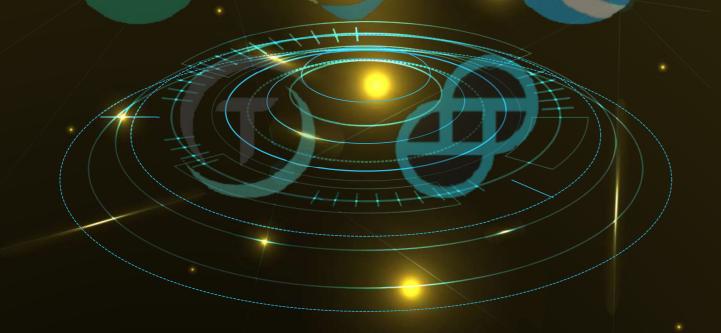

- Rich people across the world protect their savings by investing in US dollars, as the US dollar is considered the most stable currency in the world.
- Now for the first time ever, everyone can invest in the US dollar without any risk whatsoever with the help of blockchain and stable coins.
- Simply holding Dollars happens to be a much better investment strategy compared to Holding Naira / Lebanese Pound etc.

What are stable coins?

 USDT (Tether) and USDC (Backed by Circle) are the two most popular dollar pegged stable cryptocurrencies. USDT is the most popular of stable coins, which is backed by US Dollar deposits on a 1-on-1 basis. This helps the price of stable coins stay stable, unlike Bitcoin which keeps going up and down.

 USDT helps in protecting your savings from inflation that happens in Naira/ LBP. By simply saving in US dollar pegged stable coins you can be assured that your savings are inflation free.

How can you buy usdt and store USDT safely and securely?

- Safex exchange lets you buy USDT through your bank account and other payment methods you can choose from a list of pre-vetted and experienced traders.
- Safex wallet is one of the simplest and safest ways of holding your cryptocurrencies, you can also transfer them to anyone by simply entering their address.

How to protect savings in USD and earn interest on your savings?

 Safex has partnered with Youholder (A Switzerland based crypto savings bank with \$300 Million of insurance) to offer custody for USDT/ UDSC and offer a annual interest of 12%, you can avail this offer by sign-up and doing kyc with them, if you want to learn more click this

Did you know SAFEX Exchange never holds your funds yet ensures complete security of your funds?

 SAFEX is the only exchange that you can be sure that you will use not to lose your funds, because we never hold your funds to begin with.

You directly receive funds to the address on your SAFEX wallet, and you can buy or sell crypto from the exchange directly.
